# RIPAN AICH SARKAR

SOFTWARE ENGINEER | DATA ANALYST

## WORK EXPERIENCE (3 YEARS)

### [Tech Lateetud] [Software Engineer – Data & Automation]

March 2022 – present

- Developed customized BI reports for major clients like **Chanel**, **BCBSMA**, and **LifePoint**, leveraging **Dataverse** for data integration and providing ongoing insights and support.
- Implemented **Blue Prism and Power Automate automations** for **BCBSMA**, utilizing **SQL Server** for data management, scripting, and monitoring production runs to ensure smooth operations.
- Leveraged **AI tools like ChatGPT** to troubleshoot and optimize complex **DAX queries**, optimizing report performance and reducing manual workload by 30%.
- Led **ABBYY FlexiCapture 12** POC, specializing in **NLP** to process structured and unstructured forms, improving data extraction accuracy.
- Worked as a **Quality Tester (Model-driven Power Apps)** – Tested and validated functionalities for performance, security, and business compliance.

## SKILLS

- Microsoft Power BI, DAX
- Microsoft Power Query, Power Pivot
- Blue Prism
- Microsoft Power Automate
- ABBYY Flexicapture, NLP
- Microsoft Office: Excel, Word, PowerPoint etc.
- SQL, Dataverse
- AI Tools: ChatGPT, Copilot, Perplexity, DeepSeek etc.
- Adobe Lightroom
- Adobe Premiere Pro
- Adobe Photoshop

## EDUCATION

### Bachelor of Technology (BTech), Information Technology

Bengal Institute of Technology, 2020
